Borland Turbo™ Delphi®

Feature Matrix

INTEGRATED COMPILERS	PRO	EXP
Enhanced! High-performance 32-bit optimizing Borland Delphi® native code compiler	✓	✓
32-bit inline assembler with support for the full Intel [®] x86 instruction set (including Intel Pentium [®] Pro, Pentium III, Pentium 4, Intel MMX,™ SIMD, Streaming SIMD Extensions, SSE, SSE2, and SSE3, and AMD [®] 3DNow! [®]	✓	✓
FRAMEWORKS AND SDKS	PRO	EXP
Enhanced! VCL for rapidly building Borland Developer Studio applications for Microsoft Win32 [®] with full RAD Visual design	✓	✓
Microsoft Win32 SDK	✓	✓
RAD TWO-WAY VISUAL DESIGNERS	PRO	EXP
New for C/C++! AtoZed IntraWeb 8.0 RAD Web page development	✓	✓
Enhanced! VCL forms designer	✓	✓
Together [®] powered Unified Modeling Language™ (UML [®]) designer	✓	✓
LANGUAGE FEATURES		
"for in" loop iteration	✓	✓
Enhanced! Function in-lining for increased application performance	✓	✓
Unicode strings	✓	✓
New for Delphi Win32! Operator overloading	✓	✓
New for Delphi Win32! Class variables/class static data	✓	✓
Nested types	✓	✓
New for Delphi Win32! Records with methods (value types)	✓	✓
Expression evaluation in compiler directives	✓	✓
Create reusable native 32-bit dynamically linked libraries (.DLL), COM controls (.OCX), and standalone executables	✓	✓
Custom variants with support of your own data types, complex numbers, safe arrays, and passing variants through data sets	✓	✓
Expanded variant support for Int64 and the unsigned types	✓	✓
PROJECT SUPPORT	PRO	EXP
Delphi 1 through 2005 VCL project import into Borland Developer Studio VCL or VCL.NET Projects (does not include external 3 rd party components)	✓	✓
New for C/C++! Project dependency checking	✓	✓
Project level build ordering	✓	✓
Compile or build current project and all later projects	✓	✓
PERSONAL DEVELOPER PRODUCTIVITY	PRO	EXP
New! Editor "Change Bar" indicates modified lines and saved session modified lines	✓	✓
New! Live Templates System – tab through fields and insert points of any template	✓	✓
New! Unified Template and Code Snippets system	✓	✓
New! Surround Templates – wrap "surroundable" templates around selected code or text	✓	✓
New! Scriptable Templates – customize the behavior, code generation, and user experience of your templates	✓	✓
New! "Smart" Block completion – anticipates and gracefully adds block closures as you type	✓	✓
New! Code navigation – quickly "hop" from method to method within your code	✓	✓
New! Virtual form positioner for VCL designers in "docked" mode	✓	✓

New for C/C++! Hot-key Searchable Tool Palette — find any component quickly	✓	✓
New for C/C++! Gallery Palette — Gallery Wizards in the tool palette when you need them	✓	✓
New for C/C++! Multi-Target Project Manager supports all language projects, even within the same Project Group	✓	✓
New for C/C++! SyncEdit — block-edit multiple instances of a symbol simultaneously	✓	✓
New for C/C++! Automatic multi-level local file backups	✓	✓
New for C/C++! History Manager with file differencing and restore	✓	✓
New for C/C++! IDE Welcome Page — with fast access to recent projects, Borland Developer Studio and Borland Developer Network RSS news feeds, documentation, demos, examples, helpful links, updates, Weblogs, and more	✓	✓
New for C/C++! Integrated QualityCentral — submit bug reports and feature requests to Borland	✓	✓
New for C/C++! Class navigation shortcuts	✓	✓
New for C/C++! Structure Pane for source code	✓	✓
New for C/C++! Syntax Highlighting Open Tools API extension with built in support for JavaScript, PHP, and INI files	✓	✓
New for C/C++! Ability to individually customize editor options for particular file types	✓	✓
New for C/C++ and Enhanced! Open Tools API for code completion and symbol table queries	✓	✓
Enhanced! Symbol Insight — click to navigate to declarations and implementations	✓	✓
Enhanced! Code Insight—Faster performance and improved code and parameter completion provide on-the-fly member lists and parameter hints as you type	✓	✓
Enhanced! Code Insight – Code completion for DTD described markup language including HTML, WML, XHTML, and XSL	✓	✓
Enhanced! Editor Gutter – easier to read with less clutter	✓	✓
Enhanced! Code Completion for Delphi, C/C++, C#, HTML, WML, XHTML, XSL, and now CSS!	✓	✓
Enhanced! VCL Object Treeview for quick navigation and manipulation of object in the VCL/VCL.NET designers	✓	✓
Enhanced! Class completion	✓	✓
Enhanced! Custom IDE desktop layout profiles with enhanced support for docked windows	✓	✓
Enhanced! Import Type Library	✓	✓
Enhanced for C/C++! New Component wizard for component creation and registration	✓	✓
Code templates — code repository makes on-the-fly code reuse fast and simple	✓	✓
To-do lists keep your development on track	✓	✓
Help Insight — convenient tooltips provide help snippets as you develop	✓	✓
REFACTORINGS	PRO	EXP
New! Introduce Variable refactoring	✓	✓
New! Introduce Field refactoring	✓	✓
New! Inline Variable refactoring	✓	✓
New! Change Parameters refactoring	✓	✓
New! Safe Delete refactoring	✓	✓
New! Push Members Up / Down refactoring	✓	✓
New! Pull Members Up refactoring	✓	✓
New! Extract Superclass refactoring	✓	✓
New! Extract Interface refactoring	✓	✓
New! Move Members refactoring	✓	✓
New for C/C++! Rename refactoring	✓	✓
Declare variable refactoring	✓	✓
Declare field refactoring	✓	✓
Extract method refactoring	✓	✓
Extract to resource string refactoring	✓	✓
Find unit/import namespace refactoring	✓	✓
Refactor driven "Find in Files"	✓	✓
TOGETHER® MODELING	PRO	EXP
New! Full two-way LiveSource® class diagrams	✓	✓

Import .NET assemblies as COM objects in Win32 VCL applications SOAP Web Services development for Win32 and .NET DCOM support DataSnap TM /MIDAS multi-tier database application framework COM+ Object Wizard to easily create COM+ objects and servers	For C++ Professional – build server-side XML Web Services	✓	✓
New for C/C++! Import .NET assemblies as COM objects in Win32 VCL applications ✓ ✓ SOAP Web Services development for Win32 and .NET ✓ ✓ DCOM support ✓ ✓ DataSnap™/MIDAS multi-tier database application framework ✓ ✓ COM+ Object Wizard to easily create COM+ objects and servers ✓ ✓	For C++ Professional – build client-side XML Web Services	✓	✓
SOAP Web Services development for Win32 and .NET DCOM support DataSnap™/MIDAS multi-tier database application framework COM+ Object Wizard to easily create COM+ objects and servers ✓ ✓	REMOTING AND APPLICATION CONNECTIVITY	PRO	EXP
SOAP Web Services development for Win32 and .NET DCOM support DataSnap™/MIDAS multi-tier database application framework COM+ Object Wizard to easily create COM+ objects and servers ✓ ✓	New for C/C++! Import .NET assemblies as COM objects in Win32 VCL applications	√	✓
DCOM support DataSnap™/MIDAS multi-tier database application framework COM+ Object Wizard to easily create COM+ objects and servers ✓ ✓		✓	✓
DataSnap™/MIDAS multi-tier database application framework ✓ COM+ Object Wizard to easily create COM+ objects and servers ✓	DCOM support	√	✓
COM+ Object Wizard to easily create COM+ objects and servers ✓ ✓	**	√	✓
		√	✓
	COM+ Object Subscription Wizard to easily consume COM+ events		✓

Advanced Type Library Editor with complete support for Microsoft IDL editing	✓	✓
Support for Automation Object event handling	✓	✓
COM Object Wizard	✓	✓
Microsoft ActiveX [®] Control Data binding	✓	✓
Support for sparse vtables to support VB servers	✓	✓
Import COM servers as components to develop visually	✓	✓
WEB/INTERNET DEVELOPMENT: VCL/VCL.NET	PRO	EXP
New for C/C++! IntraWeb 8.0 WYSIWYG RAD Web page development	✓	✓
Delphi WebBroker Microsoft Internet Information Server (IIS) CGI and ISAPI Web application framework, wizards, components, and classes	✓	✓
Indy v10 components with more than 120 Internet protocols and Internet standards including TCP, UDP, ICMP, SMTP, POP3, IMAP4, HTTP, NNTP, FTP, IPv6, and much more	✓	✓
VISUAL COMPONENT LIBRARY FOR WIN32® AND .NET (VCL/VCL.NET)	PRO	EXP
New! Live Designer Guidelines with "smart" drag and snap-to lines	✓	✓
New! Margin and Padding properties for all VCL controls	✓	✓
New! Text baseline alignment	✓	✓
New! Extensible user registerable guidelines	✓	✓
New! VCL Flow Panel – HTML style form layouts with Autopositioning	✓	✓
New! VCL Grid Panel – table style form layouts with Autopositioning and Autosizing	✓	√
New! VCL System Tray Component – easily create Windows Tray applications	✓	√
New! IntelliMouse® "pan and scroll" support for VCL controls	✓	✓
Enhanced! TToolbar and TControlbar– updated look and feel	✓	√
Enhanced! Embedded Type Library Editor with message view error reporting	✓	√
New for C/C++! Windows XP themes	√	√
New for C/C++! Windows XP theme support for Action Manager	<u> </u>	<u> </u>
New for C/C++! TDockTabSet tabbed docking component with autohide	<u>·</u> ✓	· ·
* *	→	V ✓
New for C/C++! TCategoryButtons — collapsible button categories just like those in the new Tool palette	√	<u>√</u>
New for C/C++! TButtonGroup for combining buttons into a group New for C/C++! TBox In Action Pare popular version of TAction ManuPare	√	<u> </u>
New for C/C++! TPopUpActionBar — pop-up version of TActionMainMenuBar New for C/C++! TOpenTextFileDialog and TSaveTextFileDialog with user-selectable text encoding method	- ✓	<u>√</u>
Standard, Data Controls, Dialogs, Additional, Win32, System, Win 3.1, Data Access, and BDE component categories	<u>·</u> ✓	<u>·</u>
Internet Direct (Indy) component category	✓	
Visual Form Inheritance and Form linking to reduce coding and simplify maintenance	✓	✓
Object-oriented and reusable component and application architecture	✓	✓
Fully extensible application architecture	✓	
Object Repository for storing and reusing forms, Data Modules, and experts	✓	✓
Code Explorer for updated class reference for your application's unit files	✓	✓
TDateTime extensions accelerate your date and time calculations	✓	✓
SubComponent classes combine commonly mixed components for greater utility and speed the creation of user interfaces	✓	
Conversion Unit simplifies measurement conversion	✓	✓
Visual component creation and registration	✓	
Modern UI features: Docking, IntelliMouse support, minimum and maximum component sizing constraints, and border anchors in visual components	✓	✓
Action List for managing and directing commonly used code in an application	✓	✓
Windows Server [™] 2003, Windows XP, and Windows 2000 support for Multi-Monitor, MonthCalendar, PageScroller, and Flat Scrollbars	✓	√
Support for Advanced Custom Draw functions for increased control over the Windows API	✓	✓

Action MainMenu and Action ToolBar components for sophisticated and centrally controlled user interface design with dynamic Action Manager-driven UI surfaces	✓	✓
Action Manager provides central management of your actions and self-configuring dynamic user interfaces, taking the tedium out of UI design	✓	✓
ActionBands Customization Manager gives end users total control over ActionBands UI configurations at runtime	✓	✓
ControlBar for creating floating toolbars in GUI applications	✓	✓
Frames for building and reusing compound components	✓	✓

About Borland

Founded in 1983, Borland Software Corporation (NASDAQ: BORL) is the global leader in platform independent solutions for Software Delivery Optimization. The company provides the software and services that align the people, process, and technology required to maximize the business value of software. To learn more about delivering quality software, on time and within budget, visit http://www.borland.com.
